

Abdul Rehman

Full Stack Developer

• Lahore, PK • +92-3253621336 • work.rehmann@gmail.com • [LinkedIn](#) • [GitHub](#)

Professional Summary

Full stack Developer with 2+ years of experience building scalable and efficient APIs, microservices, and backend systems for production-ready applications.

Professional Experience

StechAI

Nov 2024 - Present

Service-based company offering cutting-edge AI, ML, and data science solutions.

Associate software Engineer ~ Onsite

- Developed and maintained RESTful APIs for scalable backend services
- Consumed and managed third-party and external APIs
- Implemented basic web security practices to protect application data
- Integrated machine learning and deep learning models into backend systems
- Built and maintained frontend components using React.js

AL ILAM ACADEMY

March 2020 - Present

Software Engineer ~ Remote

Jan 2024 – Feb 2025

- Developed full-stack web applications using Laravel (PHP) and Django (Python)
- Created responsive UI components with HTML, CSS, Bootstrap, and JavaScript
- Built and maintained RESTful APIs and backend logic for dynamic web applications
- Participated in application testing, deployment, and optimization for performance
- Integrated frontend and backend functionalities for seamless user experiences

Projects

Cyber Abuse Detection Roman Urdu ~ MVP

- Built a ML model to detect abusive content in Roman Urdu text.

Online Recipe Sharing App ~ MVP

- Developed a recipe sharing web app using React, Django, and PostgreSQL

Online Book Review App ~ MVP

- Developed an online book review web app using Laravel with features to post, rate, and review books.

Animal Image Classification ~ MVP

- Developed an animal image classification model using CNN, TensorFlow and DL Technologies.

Enterprise Office Management System ~ MVP

- A web app in PHP with features for leave tracking, task assignments, report generation, and user management.

Technical Skills

Programming & Development: Python, Django, Fast Api, Restful APIs, React, Php, Laravel SQL, Postgres, Git, GitHub, jupyter, Colab, Vs Code, Docker, Postman.

AI: Machine Learning, Random Forest, SVM, KNN, CNN, Model evaluation, Tensor flow, Pandas, NumPy, Seaborn, Matplotlib, chatbot, OpenAI.

Communication & Collaboration: Strong in Effective Communication, Collaboration, and Team Building.

Languages: English, Urdu.

Certifications

Web Design & Development

Machine Learning
